FISK MURDERED

Teacher Elopes

NOR THCROSS SLIPS A WAY AFTER DARK

Man Is O. I. Catchem

Note Left For 'Bob' Reveals Butter In Ice Box

Mrs. Eleanor Northcross eloped last Sunday night at 11:55 p. m. with a tall, dark haired gentleman in black. Her little brother awoke and saw her out the window as she jumped into the waiting limousine.

A note, however, was found the next morning on the sink, and revealed some light upon the subject. "Dearest Bobby", it read.

"Don't be worried. I'll be back in about a week. By now I am Mrs. O. I. Catchem.

"The butter is in the frigidaire, beside the pickles and onions. I left some money under the mop on the back porch.

"Be a good boy until we get home."

Investigations by friends have failed to reveal any more information about the elopement. According to the neighbors, no gentleman has been calling regularly. The event was a total surprise to everyone, they said. Even the school authorities had received no warning.

Mrs. Northcross has been a member of the Santa Ana junior college faculty only since the fall of this year, having just graduated from S. C. She is at present an instructor of physics and geology.

Honorary Society Favors Re-Rating

Phi Theta Kappa, national honorary organization, has changed its scholarship rating, according to the returns of the votes, which were received today from national headquarters.

From next year on, the requirements for membership will be a D average or less. A and B students will be excluded from the organization.

"The object of this change," writes the national president, "is to endeavor to interest the students more in outside entertainment and less in their classroom work. Phi Theta Kappa officials have been contemplating this rearrangement for over a year, but only recently have they been able to devise a plan whereby the evil could be remedied.

"We hope that with this condition the students will find their work less difficult and fatiguing, for after all, that is the chief aim of Phi Theta Kappa."

According to estimates made by the local president, this rating will cause a decrease in membership, as a majority of the students at J. C. are doing A and B work.

"The group is at present too large to be easily handled," he said, "but with this change, it will become one that not just anybody can get into. Santa Ana junior college is highly in favor of the plan."

Roy Wheeler, Student Body Officer, Confined In Orange County Bastile For Making Speech On Main Street

Roy Wheeler, vice president of the Associated Students, and former soap box orator de luxe, was given plenty of time to think quietly, by himself as a result of his arrest at an early hour on the corner of Fourth and Main streets, where he was engaged in making a public nuisance of himself and a soul stirring speech on "Communism" mixed with "Evils of Prohibition."

At the time of his arrest, Mr. Wheeler was perched upon a soap box in front of the First National Bank and was violently shouting that the only way for the people to solve the present day financial depression was for the working class to re-volt and distribute the money of all the rich equally among themselves. He also urged them to demand a repeal of the Eighteenth Amendment and to place a tax upon all intoxicating liquors that could be legally sold after its repeal.

Business Career Sought By Lloyd And New Husband

Believing an early business career more profitable, Miss Gladys Lloyd, freckled-faced, peroxide blonde from Rochester, New York, today severed her scholastic connections at Santa Ana Junior college, following a general announcement in assembly this morning that she plans to establish an artificial eye manufacturing business in the East next month.

Along with her husband, J. Russell Roth, heavy-set chemist, and former featherweight boxing champion or Costa mesa, Mrs. Roth (posing as Miss Gladys Lloyd in order not to expose herself to Ted Roth, former husband as yet undivorced) will leave by airplane Saturday evening en route for Dallas, Texas, where she will visit with relatives (white people) for two weeks.

Phillips Assumes Lead In Dramatic Production Here

Following the selection of the cast for the fiesta play, "Even Her Best Friend Wouldn't Tell Her," Ernest Crozier Phillips, dramatic instructor, has announced that he will play the canine lead of "Bozo". Paul Snow was another contender for this role, but it was generally agreed that Mr. Phillips had a more "doggyish expression."

At a recent rehearsal "bozo" was such a howling success that a gentleman living nearby, hearing ferocious growls and frightened yelps, sent for the dog catcher. A catastrophe was narrowly averted. One of the students reminded Mr. Phillips that the mistake was a tribute to his dramatic ability.

"Even Her Best Friend Wouldn't Tell Her," is the tragedy of a young girl who entered college resolved to study and become a literary success.

When it became apparent that a riot would result due to his speeches, the local police intervened and took Mr. Wheeler to the local bastille.

Mr. Wheeler has been released on bail of \$1000.00, but he must appear before the court April 4, and answer to the charges held against him.

Unass. Loafers Of Jaycee In Favor Of Six Day Plan

To satisfy the wishes of the young people, a six-day-a-week plan has been accepted for the Unassociated Loafers of the Santa Ana junior college. The plan will go into effect immediately.

"When we go only five days a week, we don't have enough work to do to keep us busy over the weekend. We're tired of going to beaches, movies, and dances. We'd rather read economics or study down at the law library." This is the report of Dante Siracusa, president of the group.

The plan was voted upon unanimously by the inmates of the institution at their voting yesterday. The matter was then taken before the new city superintendent of schools, Miss Zena Leck, and her committee, where it received immediate approval, according to the chairman.

The students who had Saturday jobs said they didn't need them anyway, and would rather give them to some one who can make better use of the money.

Bainum, Bailey Sign Up Former Teachers

Miss Genevieve Humiston and Miss Dorothy Decker have recently signed a contract with Bainum and Barley brothers as the two fattest women in the world.

Miss Humiston is yet a little "greater" than her partner, as she is tipping off the scales at 499 1/2 pounds, a lead of three pounds over her companion. This is without her make-up on, too. Miss Decker says she has hopes, however, of surpassing Hummy's record.

"My boy friend gave me a five-pound box of candy yesterday, and there's only one piece left now," she confesses. "I'm afraid to eat that for fear I'll be an old maid."

RADIO CHAIN SIGNS LOCAL J.C. STUDENT

Costs McNamee Job

Recent Marriage Of Lorna Allen Is Lucky Break For Gene Stevens

Graham McNamee is without a job!

Eugene Stevens, recent graduate of Garden Grove high school and now an attendant at Santa Ana College, today signed a National Broadcasting company five-year contract calling for a weekly salary of \$10,000 with the understanding that his duties will be to take the place of McNamee, famous announcer, who has been discharged because of a company law violation.

Under the NBC chain, it is unlawful for any employee to marry. McNamee, according to an announcement carried exclusively in this publication yesterday, secretly married Miss Lorna Allen of Tustin, California, two weeks ago, thus automatically severing his connections with the broadcasting association.

Allen Marries
News of his marriage was revealed when Miss Allen, beautiful daughter of her parents, could not control her overwhelmingly strong tendency to brag, and innocently informed George Griffith and Dante (Continued On Page Four)

Reveal Tentative Press Club Plans

Confessing that his organization is too weak to continue satisfactorily, Chester G. Ewings, president, today announced that the Press club of Santa Ana Junior college will be purchased by the O. K. organization soon. An estimated purchase price of \$250 was revealed.

Rumors current upon the campus today were that Ewing, unable to attract many members to club meetings, began negotiations to satisfy personal dissatisfactions, and that no official vote was taken to decide whether club rights should be sold. Unpopular to everyone but his recent brides, the Misses Barrel Willets? and Virginia Anthony, Mr. Ewing, club members said, never should have been elected president of the journalistic society. In the first place, they pointed out, he is unworthy of the honor, inasmuch as he is inexperienced, out-of-date socially, and thirdly, a victim of halitosis.

Ewing's nice-sounding name was responsible for his election. He was not present at the balloting, and few members knew him, it was said.

Asked whether she would meet the price of \$250 set by Ewing, Miss Loreen Beard, president of the O. K. club, revealed that in a special meeting of her organization yesterday it was agreed that the Press club is not worth more than \$1.49, including all paid-up members, and Virginia Bishop, and its adviser, Edgard Pansy Violets.

\$5,000,000 INSURANCE POLICY BELIEVED TO BE MOTIVE BEHIND KILLING

Thompson Cutthroat Gang Suspected; Greeley Cops Want "Beeg Jeem"

Fisk and Thompson

Rt. Rev. Pastor Stillwell, Buddhist Follower, To Lead Mourners

Horrible in its vivid gruesomeness was the bloody spectacle that greeted early risers this morning upon the discovery of the bullet riddled body of McKee Fisk, erstwhile dean of the local junior college. The carcass was lying sprawled on the front steps of the local jaycee building.

Detectives from the Jack Green Detective Agency, investigating the case, were called a few hours after the discovery. It was reported that they were not called sooner because the discoverers wanted to wait and be sure that Fisk was actually dead.

It is reported that he carried some \$5,000,000. in life insurance which may have been a motive, since detectives are trying to establish a connection between the "Beeg Jeem" Thompson gang and Fisk's relatives, who will profit as beneficiaries.

Although it is not an assured fact that the "job" was done by the Thompson outfit it is said to bear many earmarks of the work of that gang.

Thompson, it will be remembered is wanted in Greeley, Colorado, on a perjury charge. According to police records, he repeatedly has made the assertion that he was coming to the Santa Ana junior college to study.

The report also of residents who claimed they heard a big, black closed curtained sedan come tearing around the corner at 2:00 a. m. lends further support to this theory.

Green, confident in the ability of his men, Dick Jacks, Mike Santa Cruz, Dante Siracusa, and Jac Crawford said that the mystery will be definitely settled on doomsday.

Services will be conducted by the Melzian, Smith & Co. mortuary, at which the Left Reverend Pastor, Calvin Stillwell, of the 17th order of the Benevolent and Productive Chapter of Holy Rollerism, will preach the sermon, "Why Must He Be Saved?" A hymn, "My heavens, My Watch Has Stopped", will be sung by the quartette composed of Crumrine, Foxx, Toelle, Hare, Bowman, Lewis, Bates, and "Puny" McCormack.

Jungle Jiggles, Sensational Act Is Spot Of Show

Barbara Rurup and Everard Stoval were the hit of the season in their dancing act, "The Jungle Jiggles", during the three week's run of "Naughty News" at the Ritzy Playhouse.

The story of "Naughty News" is biographical to the utmost detail, and many intricate and complicated events occur. In the opening scene Everard is caught by Lewis Bates, president of the bricklayers' association, telling naughty news to Celestia Straub. Everard, who is a trombone player, is in danger of having his beloved horn smashed by one of Lew's bricks, when Barbara Rurup drops down in a parachute and starts to do the Jungle Jiggles.

Everyone is captivated by Barbara's dance and soon become confirmed jigglers. The heroine and Everard, who still has his trombone (Lew is near sighted), are married and move to Delhi, California where they live snappily ever after.

Hayden Extinguishes Own Life Last Night

Sheldon Hayden, instructor of music at Santa Ana junior college, committed suicide last night some time between 12 and 6 o'clock, in his room.

No note was left telling the cause of his suicide, but a half empty fire extinguisher was found in his hand, by his maid, when her repeated calls this morning failed to bring an answer.

"He has been unusually dejected lately," she said. "Though he was quiet and seldom opened his mouth even to smile, he has been more solemn than ever during the last two weeks. I think it must have been a love affair. He's been watching the mails day and night, but nothing ever came, that I could see. He wouldn't eat anything yesterday either."

Salary Reduction Cause Of Suicide

With the .008 per cent reduction of teachers' salaries the terrific opposition from members of the faculty culminated in the suicide of Edgar M. Flowers, journalism instructor. This tragedy has not moved the Bored of Education, which threatens to make another .001 per cent reduction.

Mr. Flowers, who always has been laughingly termed "The Thistle of the Faculty" explained his act in a few short lines written on his shirt collar. "They have taken away little Rosebud's lollipop allowance," the note stated. Rosebud is the baby son of the deceased.

Even this lamentable tragedy has not moved the cold hearts of the Bored which has threatened another .0001 reduction. Never before in the

What Is Trumps?

With the recent sad demise of one of the outstanding characters in our community it is with regret that we feel it our duty to expose to public scorn our police commissioner, Gene Hall, for the laxness in law enforcement and the general slight regard with which he places on the criminal element which has a strangle hold on the country's purse strings.

To think that our taxes are being squandered for gum and suckers to feed this lawless gang of murders in our midst is inconceivable to the ordinary mind. Such, however, is the case. Allow us to quote from Ben Franklin, "The early bird catches the worm." In this case the early bird caught more than that! Besides, who wants worms?

What was Fisk doing up at that hour? That is the question we put to the police commissioner, who promptly referred us to Joy McPhee, secretary at large, who replied sleepily, "What's trumps?"

That's why we are bringing this matter to the attention of the voters of this community. A vote and referendum must be taken, we advocate, to determine once and for all just what trumps shall be.

So remember your duty at the polls—expel Wrigley's from our campus—Beech nut from now on.

Wheeler Arrest

It is with unblushing pride that we wish to commend Gene Hall, police commissioner, for his prompt action in the recent speedy arrest and incarceration of one Roy Wheeler, for his libelous statements from a White King soap box on a local street corner.

The fact that Wheeler, once an outstanding citizen of our community, should suddenly turn, as he did, and attempt to corrupt the morals of the youth of this fair and by daring to preach communism, labeled, "Why we should not inhale the nasty weed", is a direct slap at our peace of mind and happiness.

For who is he to judge another's appetites?

We love our beefsteak and he preaches lettuce!

What does he want us to do? Become mere herbivorous animals?

"Shorty" Greenleaf, superior court judge, answered the question in a ringing decision in which he denounced the new prohibition cocktail, gasoline vs. coca cola as the curse which is saddling the youth of our fair country and riding them to ruin. He was solidly backed by Harry Clayton, bailiff, who was roused from his stupor by the loud snoring in the court room.

Whereupon a Mr. Neally, purported to be a philosophy professor at the local college, remarked that the "Cosmic all represented a marvelous example of the fourth dimension", which we maintain has no bearing on the case at all.

There fore, for the benefit of the thinking readers of this community we advocate the early exoneration of Wheeler, and here's the reason.

Every project that we have advocated has suffered a reverse English, and so we say, release Wheeler for the good of the cause and socialism.

We forgot to mention in the first editorial that the Bachelors will have charge of the body at a big public wake and beer contest, to which everyone is invited to be present. No admission. No hits. No runs. No errors.

Real Classrooms

That the Bored of Education should take the steps, that they have taken, already result in the suicide of one of our most famous track and sprint stars, shining in a heavenly consternation such as our college only can boast, in slashing salaries beyond all reasonable limit, is not only unfair to our college and its ideals, but will tend to reduce the high quality of teacherism that our school has so long boasted. As well as to tend to make the teachers themselves grouchy.

Phillips, Noted Modiste, Stages Fashion Revue, Uses J. C. Models

One of the Post-Lenten affairs of interest to college folk was the Fashion Revue staged in the high school auditorium, April 3. It was sponsored by Ernest Crozier Phillips, noted modiste, who spent a year in Paris studying the Worth models.

Mr. Phillips showed originality in his choice of gowns for exhibition in that the group was not limited to the usual willowy figure. He was fortunate also in securing well known local fashion models for the revue.

"Sky" Dunlap wore the graceful dance frock with long sweeping lines and slight train that gave it the much desired height and slendering effect. Eugene Stevens was very chic in a sport style—a short jacket, cut round, and a short skirt, also round. Flat heeled shoes of harmonizing color were worn with this costume and it was topped with a round tight-fitting beret.

Charles Crumrine displayed a lacy afternoon frock of light green tulle draped slightly at the hip. The sleeves were of the "Mutton Leg" type of the early 90's tapering gracefully toward the hand. A white ostrich feather fan and white lace mits added loveliness to the frock while dainty pumps peeping from the filmy folds completed the costume.

Paul Wright appeared in a model of the petite blond. Its tight bodice and flowing skirt were fashioned of exquisite lace over light blue taffeta. The low neck and short puffed sleeves and a white lace poke bonnet decorated with rosebuds and broad ribbon streamers gave the colonial touch so popular at the present.

One of the most talked of garments on display was that for the

Green Honored With Shakesperian Award

Santa Ana is proud over the recent international victory of one of its former collegians, Jack Hawkes Green, poet and author, who won this years Shakesperian prize for poetry. The prize winning manuscript was entitled "Does She Love Me?" Oh, Yes, Oh Yes.

Critics all over the country are raving about Mr. Greene's work. "Never has there been anything like it", they say. The poet's genius is traced back to his college days when his poetry appeared in the "Tavern Post". Even today lines from his school day contributions are quoted on the campus. Here are some of the most famous:

"I kissed her once, I kissed her twice,
And I didn't know the harm
Until I met here at the altar rail
A leanin on my arm."

Lella B. Watson, Foreign Language Instructor, Kidnapped By Airplane When Bathing At Long Beach Front

Miss Lella B. Watson, junior college foreign language instructor, was abducted by two kidnapers in an airplane last Wednesday morning on the Long Beach ocean front where she was bathing with her companions. The plane disappeared before the alarm could be spread.

The only eye-witnesses to the crime were Miss Agnes Todd Miller and Mrs. Gail S. Smith, also teachers at Santa Ana junior college, and they reported that they were splashing in the surf with Miss Watson, when they were startled by the whirring of a flying machine just above them. It dipped and rose, darted here and there and finally sailed away.

After this interruption the teachers decided to sprint along the beach for exercise, and as Miss Watson was the athletic one of the three, she soon outdistanced the others and disappeared behind a sand dune. According to the two witnesses, she had no sooner disappeared than the airplane reappeared and made a landing along the water edge and two men jumped out.

The two teachers reported that

"Prince Of Pilsen" Cast Receives Raise

Word was received here today that a tremendous increase in salary was allotted to the now world famous Metropolitan Opera Cast of "The Prince of Pilsen". It will be remembered that the entire cast of this tremendous stage hit came from the Santa Ana junior college, where the musical comedy was first presented. On the first night of presentation, it caused such a commotion that the public demanded another performance, and Flo Ziegfeld came from New York by direct wire in order to be present. He was so impressed with the play that he immediately engaged the whole cast for a Broadway run. After one week there, the Metropolitan Opera Company got Henry Ford and John D. Rockefeller to back them financially, and procured the cast. The play has been running three years there now, with thousands of people being turned away every performance, and so a thirteenth raise has been offered the cast.

"We do not feel that we can accept another boost in salary", stated Mark Hare, Martha Wardlow, Martin Bowman, Verna Helm, Simeon Toele, James Quiggle, and his wife, Agnes McKinstry Quiggle, Clark Brown, Jean Baldwin, and Bill McCormick. "We are each receiving 15 cents every other day, and all the free lollypops we can suck, and due to the fact that the depression is still with us, we feel that an increase would cause a hardship upon someone."

It is understood, however, that they finally accepted a raise of one cent a day.

day afternoons when studios were resumed next month. the Santa Ana Valley Hospital with a fractured skull which he said he received when attempting to break the strike and return to his classroom for further lessons. He was attacked by pickets which the strikers had placed throughout the buildings and campus in an effort to sustain the strike.

Police Take Elover From Dparting Ship

Barnum was right; believe it or not, but Betty Paul, fair lino-typist, actually thought that this actually happened. Which goes to show that someone will believe everything that they see in print.

The bridal plans of Jeanette Hickman, pretty Santa Ana Junior College blonde, were halted by the San Pedro police Tuesday morning as she was on her way to marry her sailor sweetheart, Robert Deupree.

At the request of her father, she was taken off the coastwise liner "Harvard" when it was just leaving San Pedro harbor.

Deupree was until recently a member of S.A.J.C. Jeanette said he had enlisted in the navy a short time ago and as he was getting along well, they had decided to put off their marriage no longer. Miss Hickman has, during the past year, been very active in the drama department of our junior college.

Strike And Walkout Cause Of Commotion

Commotion and panic reigned supreme today on the Santa Ana junior college campus when it was learned that virtually all of the professors, teachers, instructors, coaches, directors, deans, office girls, librarians, janitors, auditors, gardeners and what have you, had declared a strike and staged a walkout. Students were prostrated with grief over the prospect of no more school this month, but were somewhat cheered when they learned of the fact that school would begin at 6:30 a. m. and last until 12:00 p. m. with classes being held on Saturdays, and possibly Sun-

Buccaneers Meeting Held With Meninas's

Although spring is still in its early stages, the Buccaneers have deemed it necessary to hold many meetings in conjunction with the Las Meninas members. A striking feature of these meetings is that the members are seldom informed of the meeting place. Due to this negligence on the part of the secretaries, some of the meetings are held on the jetty at Balboa, at Corona Del Mar, and sometimes even at the Irvine Park or Lemon Heights.

Often there are but two members at these meetings. Usually it is found, however, that both organizations are represented. The get-togethers consist of a theatre party or a dance, followed by refreshments. Possibly leap year has something to do with these gatherings.

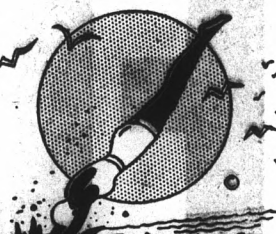

At a recent meeting the members of the two clubs gave a very interesting scene taken from Shakespeare's famous tragedy "Romeo and Juliet". Scenery for the performance was furnished through the courtesy of the Corona Del Mar Chamber of Commerce. It consisted of the Pacific Palisades, and a beautiful extension ladder from the fire department.

Verna Helm was chosen for the difficult part of Juliet. This part was made doubly difficult before the last curtain came down due to the fact that the rail surrounding the balcony collapsed and Juliet fell into the bay. However, Bill Kistinger, who undertook the part of Romeo, threw Juliet his vest pocket water wings and the day, or rather the play, was saved.

Thunderous applause greeted the close of the play. Everything would have turned out beautifully, but for the fact that Romeo forgot to blow the water wings up. Life guards went out and pulled Juliet out of the briny deep two miles south of Laguna. As soon as Juliet had emptied the sand from her shoes, the play continued.

New York producers who witnessed the scene stated that it was the best performance ever witnessed outside of Norwalk, especially the water wing scene.

FLOWERS MAKES SPEED IN BIG WAY

"DRAGEMOUT" TOSSES FISK IN BIG BOUT

Kimball Felled By Hayden Haymaker, Killer oDes Not Fight Lion

Combining a cross body scissors lock with his famous left handed knuckle twist, "Dragemout" Hayden, pride of Irving Park, won three out of four falls to defeat "Flashy" Fisk, the Terrible Turk from Long Beach, in an ear pulling contest Saturday on the greensward of the bowling green in back of the flying field.

Referee Billy Kimball, tried his best to stop the match when it became apparent that one of the contestants would probably win, but he was thrown for a seven yard loss by Hayden when he forgot to move from in front of a terrific hay maker aimed in his direction after he had waved at a certain blonde who was occupying a ringside seat. "Dragemout" afterwards explained that he had forgotten where h ewas, and apologized to Fisk, which makes both of them feel like something or other.

Highlights of the occasion now came thick and fast, the thicker and faster the better, and the preliminaries followed in rapid succession. "Killer Klayten", of the Pawk Avenue Klaytens was challenged to a free-for-all by Muttin Bowlegs, the

Flowers Born In Triumph

Russian Lion, but that's neither here nor there and the stands emptied all over both of them without further ado. Klayten should have won, and he no doubt would have done so had not Bowlegs pulled over to the curb in time to save himself.

The next on the program was a song and dance by Mike Santa Claus, assisted by Dumpin Harnoise at the piano and Little Geny Holly of the eukelayley. The Willhe Bawl All-night told how he won the Easter egg hunt Sunday, making the first round in three over the par set for the six times around as they do it in the old country.

DOINGS OF THE DUMB-BELLIES

BY MAY MAAG

For the first time in the history of the junior college, one of her members, Lorna Allen, carried the red and black to victory in a sweeping conquest over the Garden Grove contestant in the Southern California finals of the Tiddle-de-Winks championship contest held on Lemon Heights yesterday.

Critics praised Lorna for her deftness and especially her cleverness in distracting her opponent by snapping her gum at a tense moment; thereby disturbing the Garden Grover's equilibrium.

Everyone joins in offering sympathies to Betty Hawk who lost the intercollegiate 50 yard monkey race, entering too much into the spirit of the event, she tried to climb a nearby tree. Better luck next time, Betty.

Combining a spectacular cross court smash with her famous doubles, Miss Zena Leck, better known as "Lightning Leck", ping ponged her way to a final net triumph over Alverda West, pride of Irvine Park in the ping pong contest Monday on the rocks at Laguna.

Bonnie Kiser refereed the contest. When it became evident that some one would win, she tried to stop the players, but they were frenzied with the lust of battle", so said the critics.

Everyone expected Alverda to win and she would undoubtedly have done so, but for "Lightning Leck's" outstanding rallies. Running around and under the table, she managed to be everywhere, never missing a shot. What a match!

Betty Walker stands unchallenged as the champion egg finder of Orange County. She proved herself supreme last Sunday by finding the hard boiled Easter egg. Her perseverance is to be commended. She was undaunted by the threats of farmers who discovered her in their chicken coups, or of irate store keepers. She never gave up the search until she found the egg in a hornet's nest. Three stings for Betty!

Co-eds Try New Baseball Policy

With the opening of the co-ed's baseball season, it was revealed that fly paper will be furnished by the school although it has usually been the custom for every player to bring her own.

Because a large number of flies were getting away, it was thought that the fly paper was responsible. Nothing but the highest grade material is to be used, according to "Over the Fence" Foote, athletic instructor.

BUTTERCUP TAKES FIRST IN DERBY HELD ON OVAL BEFORE MANY BIG SHOTS

Sad Events Mar Regatta As Wright Is Injured, Hammond Seen With Star

Doing the 660 in what was believed to have been the most interesting spectacle ever staged as a track meet in the entire state was witnessed by over 10,000 people last Wednesday evening on the Junior College track.

At the bark of 12 gauge shotguns, which by the way knocked over the starter, Edgar M. "Spud" Flowers shot out of the starting position into the open as tho the entire state police department had went into action against him.

Wright Injured

Many of the spectators were paralyzed with fear at the start of the

"Starter" Decker

race when the gun went off. The most severe casualty was William Paul "Adonis" Wright, who was thrown into severe fit as the falling shots hit him in what was believed to have been the lower rear regions of his back.

Bishop Leads Fashions

At the track meet were seen some of the most stunning spring creations ever shown at such a derby. Miss Virginia "Venus" Bishop leading the fashion parade in what was believed to have been the most exquisitely lovely bits of attire ever seen south of Hollywood.

Her costume was one of bright green silk bespangled throughout with gold for-get-me-nots imitation, made of the most intensely bright celophane ever seen by this writer. With beautiful salmon red stockings, her attire was completed with that new pastel shades of yellow satin slippers and a bright blue velvet hat adorned with stuffed blue birds and canaries.

Hammond With Pickrich In the ringside seats were seen such notables as Marcene Pickrich, gorgeous screen beauty, who was accompanied by Mr. D. K. Hammond, to whom the movie star frequently referred to as "Delicious" taken, it is suspected after his first initial. It is understood that the gentlemen of the Board of Education are investigating the matter, since Mr. Hammond very snobbishly refused to notice them or introduce them to Miss Pickrich at the mammoth spectacle.

Flowers Spurred On

At the start of the race Flowers was spurred on by the insistent screaming of the crowd, "Fly Buttercup", and as he made first base he was understood to have questioned by-standers as to whether the news-reel cameramen were on the job.

As speed made the first touchdown he stepped off the field a moment to speak to the unseen millions who were listening in over the Columbia Tank and National Biscuit Company networks of two radio stations.

Radios For Hoover

He asked that all people remember his prowess as a shot-putter and discus thrower and also made a dramatic appeal to the radio audience to return Mr. Hoover to the White House, an attempt at politics which was frustrated as certain representatives of Tammany struck him with a rubber hammer which ended the happy day for all concerned.

"Spud" Flowers, it was learned, is to be decorated at the city dump with numerous black eyes, bruises, etc., by "Biff" Homan who, it is said, suffered a relapse in his mania

Cook Drives Dogs To Victory With Brickbat In Lead

Flashing down the straightaway far ahead of his opponents, "Trailer" Cook of Cook, Cook, Cook & Cook, importers of anything, anywhere at anytime, lashed his select team of domestic Lap dogs to victory in the Death Valley Sweepstakes Tuesday just before dawn. He had been at the wheel for fourteen days and nights, and clearly showed the effects of his strenuous efforts. His great lead dog, "Brickbat" Armstrong, maintained such a terrific pace that Cook claims that his feet had only touched the ground once in the entire distance from Palm Springs to Black-toe which was the custom in those days.

The winning team, composed of "Horselaugh" Daneri, "Cawliflower" Shaynberg, "Mamma's Little Doolie" Giblet, "I Knew Him When" Brooks, "Iscream" Cone, Paul Junkright and dear old "Brickbat" were treated to an unusually succulent dinner of fish flavored with old socks and Old Judge.

On the specially constructed bleachers at the Finish line Bill "Whata-man" Foote and Horace "Fishface" Ritner, decided from his remarkable physique that "Brickbat" should most certainly take the prize.

Rowing Crew Makes First Appearance On S. A. River Run

Leading the newly formed S. A. J. C. rowing crew to victory was the pleasant task of Gene Robb, managing editor of El Toro and recently coswain of the crew.

Mr. Gene Robb

Using the Santa Ana river as their course the crew composed of Glover Hendrickson, captain; May Maag, Jack, and Bill Cook as oarsmen, the shell christened "mud-hen" in a ceremony preceding the memorable affair shot merrily along as the dauntless coxswain urged his surprise when the captain yelled out "strike" and the boat struck the concrete pier recently dedicated by the bricklayers union.

James Goodfellow who acted as master of ceremonies at the victory celebration over the Golden Bear crew, stated in his very peculiar manner that the crew should be acclaimed by all as true Dons, at this striking moment Isadore Goldstein and Abraham Levy pawn brokers arrived on the scene with a group of deputies from the sheriff's office.

The first of all siezed the damaged shell and then laid claim to the silver trophies and the top hat worn by Goodfellow, since it was claimed that only the first payment had been made on these things and therefore they could not be used as they had been.

of jealousy over Flower's popularity. It is hoped that "Biff" will not be so severe as "Buttercup" is growing

College Instructor Joins Barnes Circus

"Pop" Nealley, our aimable "sike" teacher and man about the campus, has overthrown all his superstitions and joined the famous Al G. Barnes Five Ring Circus.

Hereafter, he will be no longer "Popper". He becomes Barnes, Bashful, Barefoot Boy, the tight rope walker. All he needs is an umbrella, preferably bright purple, to match his flame tights and his orchid feather cap.

One of his featured acts will be the pushing of a doll and doll buggy across the wire and the balancing of the umbrella overhead at the same time.

Jay Seekers will be interested in the doll and doll buggy, as it was donated to the B.B.B.B. by Jennie L. Tessmann, her one relic of her

Agnes Todd Miller In County Hospital For Burns Treatment

Inmates of the county hospital public ward today moved over to make room for Miss Agnes Todd Miller, erstwhile English teacher of S. A. J. C.

Miss Miller was found early this morning by the Greenville Bean House Fire Department, who responded to a call sent in by the Delhi neighbors of that vicinity.

The firemen found the living room in flames; and due to the dense smoke throughout the home, they had difficulty in locating Miss Miller, who was lying unconscious on the davenport. They rushed her to the hospital, where the doctors treated her for the third degree burns about the face and body.

It was found necessary to make

Limburger Reduces Income Tax; Bates, Barnes, Green Says

Industry was revolutionized today with the publication of the pamphlet, "Capitalism, the Nation's Salvation", written by the country's leading capitalists, Jack Green, Howard Barnes, and Lew Bates.

The pamphlet contributed by these three blockheads of the American Swiss Cheese Corporation denounced high income taxes in their fiery statement of profit and loss. "An overwhelming tax is degrading our country and bringing it to the lowly standard that our socialists enemies desire. At present our own concern pays 91 per cent income tax; our losses amount yearly to 35 per cent of the income. Thus from a total amount of \$5,000,000 our profit is a loss of \$1,300,000. At this rate our only salvation will be to close up for two years. At the end of this time the Swiss cheese will have spoiled and may be sold for limburger cheese. This latter product gives bigger net profits and is taxed less, for the collectors dislike entering the factories", it was stated.

Radio Chain Signs Local J. C. Student

Continued From Page One) Siracusa, secret-service men of the local junior college, of her happiness. Griffith and Siracusa, the bums, immediately wired NBC officials, and a general announcement of McNamee's discharge was made.

Stevens, friends believe, is highly capable of filling the position left vacant through McNamee's action. He has secured practical experience through weekly broadcasts over KR EG, the hors eef the Orange Empire. While attending Garden Grove high school, Stevens served as student body president, and the public speaking practice obtained from his weekly leadership over this vast body of 28,000 students undoubtedly will prove of benefit to him in his new capacity, friends believe.

Works Chicago Stevens will be employed most of the time in Chicago, at the Ritz Ritz Night club, where Crooners Cecil Slaback, Jim Daneri and Doyle Gilbert hold forth nightly. His position in Santa Ana will be filled by another junior collegian, to be selected this week.

Financially independent, Stevens has announced publicly that his new salary of \$10,000 will be donated to the home for blind mice. "What do I need with additional money?" was Stevens' answer to a question thrown at him in an interview with a newspaper other than the Weekly Ginerate-her.

No great men were born in Garden Grove. Only babies were born in this area which was so fortunate to secure Stevens, the broadcaster, according to a report from the city hall in that community.

Several skin grafts. Later today it was learned that Jess Willard, former heavyweight boxing champion of the world, had offered for a price to give the necessary skin as his finances are extinct.

Get Married

"In the spring a young man's fancy lightly turns to thoughts of LOVE."

Now is your chance to grab that April bride. . . FREE . .

FRIDAY we are sponsoring a matrimonial class headed by the Dr. Reverend Burp Ziltch.

We furnish everything, including the geraniums for the bridal bouquets. YES, we also have the ENGAGEMENT RINGS. And How! and with such easy terms. Just think, a small payment down, and a little each week, will soon pay for your lovely rings.

Yours for the trouble

Del Ano Make-Up Declared Successful By College Students

Presenting an entirely different arrangement and unique comic features "Del Ano" was unanimously acclaimed by members of the Associated Students to be the best year book ever printed here.

"Members of the staff have cooperated wonderfully in the way they attended all the pinnoke games and never missed reading funny papers", stated Miss Dulcie Greene, editor-in-chief. It seems that these contests kept up the morale of the editors who were always afraid that they could not think of enough jokes. Reading the comic sections furnished ideas and created the artistic mood which was responsible for the publication's success.

Over half of the book was given over to cartoons, humorous sketches, and riddles. Some pages were reserved for campus news and whatnot to satisfy the demands of a few faculty members. The comedy idea has never been attempted before, but the project is an undoubted success. The entire college has never been so good natured before. All teachers have suspended homework indefinitely, despite protests from collegians.

The arrangement of the pages has caused a great deal of comment. Every other sheet is blank; thereby leaving space for signatures and letters. This method is also advantageous in so far as it prevents eye strain. The empty sheets which are colored green are lauded by physicians in the city here.

Exchange Of Dresses To Be Featured Soon

All the feminine teachers and students flittered and fluttered upon learning that a dress exchange was to be established near the campus in a few days. No doubt the result will be disconcerting to the masculine members of our institution. One day, who knows, but the young Lochinvar will see a striking frock on his "Ga-ga" girl. The next day he steps up to the same frock with the chiffon velvet expression, and whoops—it turns out to be Miss D plux X, the teacher.
